

Sulfadimidine-HRP Conjugate

Catalog number: 50025

Unit size: 1 mg

Product Details

Storage Conditions	Freeze (<-15 °C)
Expiration Date	12 months upon receiving

Chemical Properties

Appearance	Liquid
------------	--------

Applications

Sulfadimidine-HRP conjugate is used for developing an ELISA assay for quantifying sulfadimidine with an ELISA assay. Sulfadimidine-HRP conjugate may also be used for quantifying sulfamerazine, sulfadiazine, sulfamethoxydiazine, sulfachloropyrazine, sulfaquinoxaline, sulfadimethoxine, sulfadoxine, sulfachloropyridazine and sulfapyridine. Sulfadimidine-HRP conjugate has minimal number of sulfadimidine molecules on each HRP to maximize its assay sensitivity.
