

## Sulfadimidine-BSA Conjugate

Catalog number: 50026

Unit size: 1 mg

### Product Details

---

Storage Conditions	Freeze (<-15 °C)
Expiration Date	12 months upon receiving

### Chemical Properties

---

Appearance	Liquid
------------	--------

### Applications

---

Sulfadimidine-BSA conjugate is used for developing anti-sulfadimidine antibodies that are typically used in an ELISA assay. The anti-sulfadimidine antibodies may also recognize sulfamerazine, sulfadiazine, sulfamethoxydiazine, sulfachloropyrazine, sulfaquinoxaline, sulfadimethoxine, sulfadoxine, sulfachloropyridazine and sulfapyridine. Sulfadimidine-BSA conjugate has multiple sulfadimidine molecules on each BSA to maximize its immunogenicity.
