

Sulfathiazol-HRP Conjugate

Catalog number: 50028

Unit size: 1 mg

Product Details

Storage Conditions	Freeze (<-15 °C)
Expiration Date	12 months upon receiving

Chemical Properties

Appearance	Liquid
------------	--------

Applications

Sulfathiazol-HRP conjugate is used for developing an ELISA assay for quantifying sulfathiazol. Sulfathiazol-HRP conjugate may also be used for quantifying sulfatroxazol, sulfamethoxazol, sulfamethiazol and sulfisoxazole. Sulfathiazol-HRP conjugate has minimal number of sulfathiazol molecules on each HRP to maximize its assay sensitivity.
